PROFESSIONAL SUMMARY

I healed a combination of toxic brain injury, Lyme and environmental illness through my training and associated healing sessions with the 8th Fire School. This, and training in other modalities allowed me to heal the convergence of symptoms that nearly killed me. Along the way I discovered and cultivated a natural ability to help others in their own healing. This is not just using Shamanic practices but also through the application of Angel Fire, Reiki, Crystal Healing and Qigong.

Since taking up the healing arts I am pleased to have assisted over a hundred clients in their successful healing. For a few, I have facilitated and eased their transition back into the Spirit World.

I am passionate about being of service to those in need.
